Instant Translate

Enables participants to select & translate text in an assessment

Instant Translate

Assessment progress:  A O ?

Writing Good Test Questions

9 of 11

What term is commonly used to refer to a choice in a multiple choice question that is incorrect?

- stimulus
- distracter
- answer
- outcome

Translation

French (Français)

Quel terme est couramment utilisé pour désigner un choix incorrect dans une question à choix multiples ?

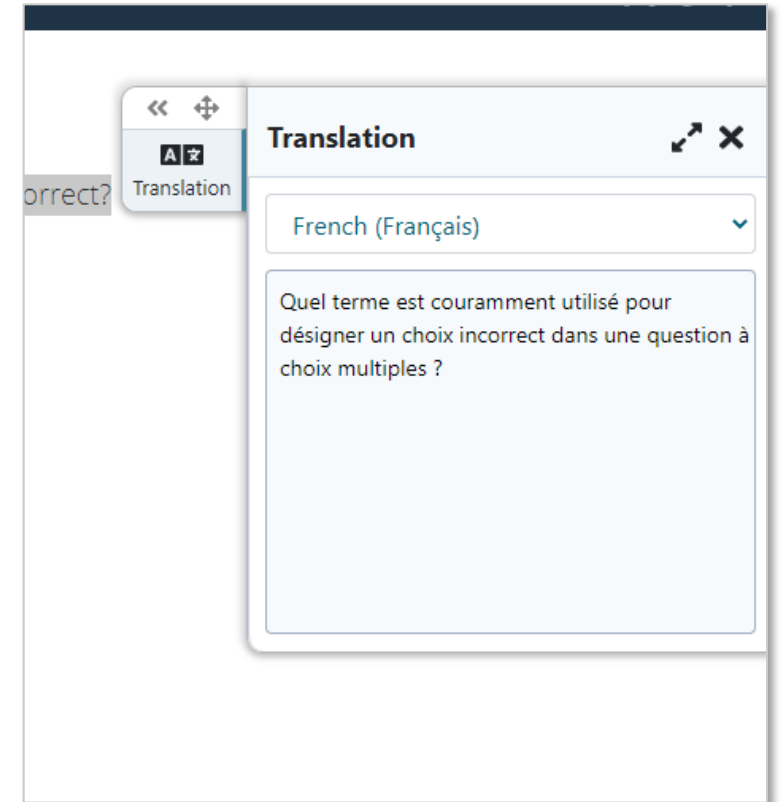

Previous Question Next Question Assessment Navigator Highlight Question Submit

How it works: Getting Started

- Machine translation tool available to participants within an assessment
 - Is NOT part of the Questionmark's Translation Management System (TMS)
- Optional feature enabled by our Solutions Services team
- Service is configured with languages your organization wants to target
 - 21 languages available (list on next slide)

How it works: Taking an assessment

- Instant Translate is available to participants within the assessment
- Participants select desired target language from drop-down
- During the exam, participants can select text (e.g. question stimulus, question choices, etc.) to translate 'on the fly'

How it works: Administer and Schedule

- Administrator creates new schedule
- Uses 'monitoring type' to set desired Instant Translate language settings

Author	Last Modified	Language	Monitoring Types	Test Centers	Extra Time
an min	05-10-2022 13:31		Unmonitored		0
an min	05-12-2022 15:34		Unmonitored		
5328	03-17-2022 12:25		Unmonitored Questionmark Secure OnSite Proctoring Instant Translate - Chinese Instant Translate - German French Instant Translate with Rules of conduct		
5328	03-17-2022 15:24		Instant Translate: Europe		

Available languages

- Arabic
- Chinese (Mandarin)
- Danish
- Dutch
- English
- Finnish
- French
- German
- Greek
- Italian
- Japanese
- Korean
- Latvian
- Norwegian (Bokmål)
- Polish
- Portuguese
- Russian
- Spanish
- Swedish
- Turkish
- Ukrainian

Benefits

- Flexibility: turn the tool on and off per assessment schedule
- Wide reach: 21 target languages
- Fairness: provide clarity and reduce test-taker angst when exam content is not in participants' native language
- Supports growth: deliver assessments in new markets across the globe
- Cost-effective: fills the gap when costly full translations are not warranted

Topic Scales

New feature enables Sharing and Management Custom Likert Scales

- Previously Custom Likert Scales are “topic-owned” -- they are “shared” with other authors who have access to that topic
- How it works
 - New tab in topics
 - Manage scales for
 - Likert
 - Survey Matrix
 - JTA*

**Previously, dimension scales for JTA questions were not exposed in custom scales*
- No changes in permissions

Tab to access Topic Scales

Buttons: + New, Copy, Publish

Questions (9) | Outcomes | Scales | Archived Questions (0)

<input type="checkbox"/>	Order...	Description	Type	Created
<input type="checkbox"/>	1	The instructor was available for communication outside of class.	Likert	Mar 16 20
<input type="checkbox"/>		The instructor was prompt in returning assignments/papers/tests/e...	Likert	Mar 16 20
<input type="checkbox"/>		The instructors grading practices/policies were fair.	Likert	Mar 16 20
<input type="checkbox"/>	4	The instructor was courteous and considerate towards students.	Likert	Mar 16 20
<input type="checkbox"/>	5	The instructor was well prepared for the course	Likert	Mar 16 20

New tab in Topics

Tab enables 1) Review existing scales; 2) Create new scales

[Questions \(6\)](#) [Outcomes](#) [Scales](#) [Archived Questions \(0\)](#)

Demo

Migrating “personal” (legacy) scales

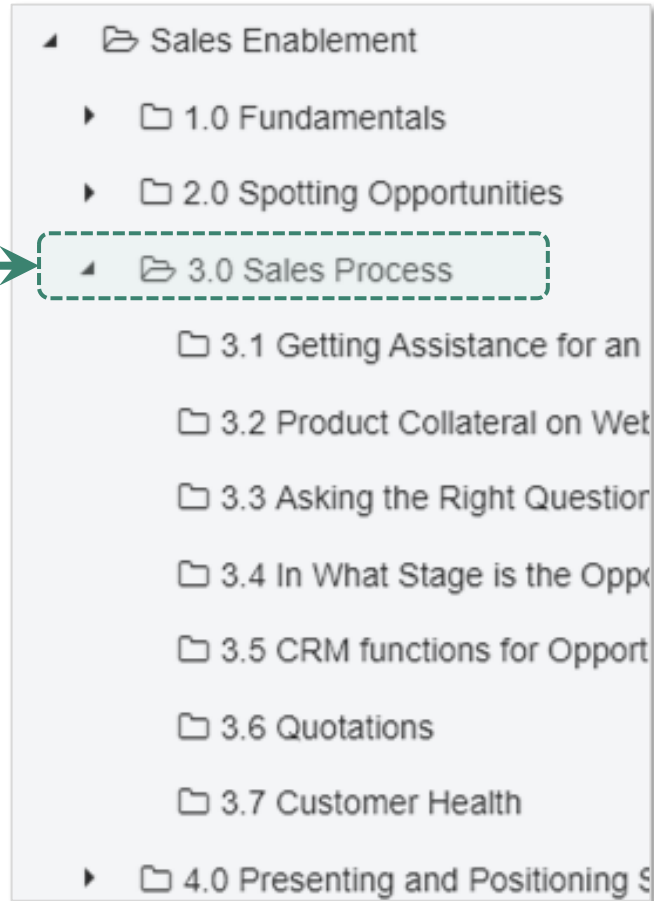

- Personal custom scales are still available for use
- Become available as Topic scales upon
 - Using in a new question
 - Editing a question that uses the scale

Copy / Paste

- Scales themselves cannot be copied/pasted to other topic
- To copy/paste
 - copy a question that uses desired scale and paste to desired target topic
 - Open/edit and then save the question
 - Scale will appear

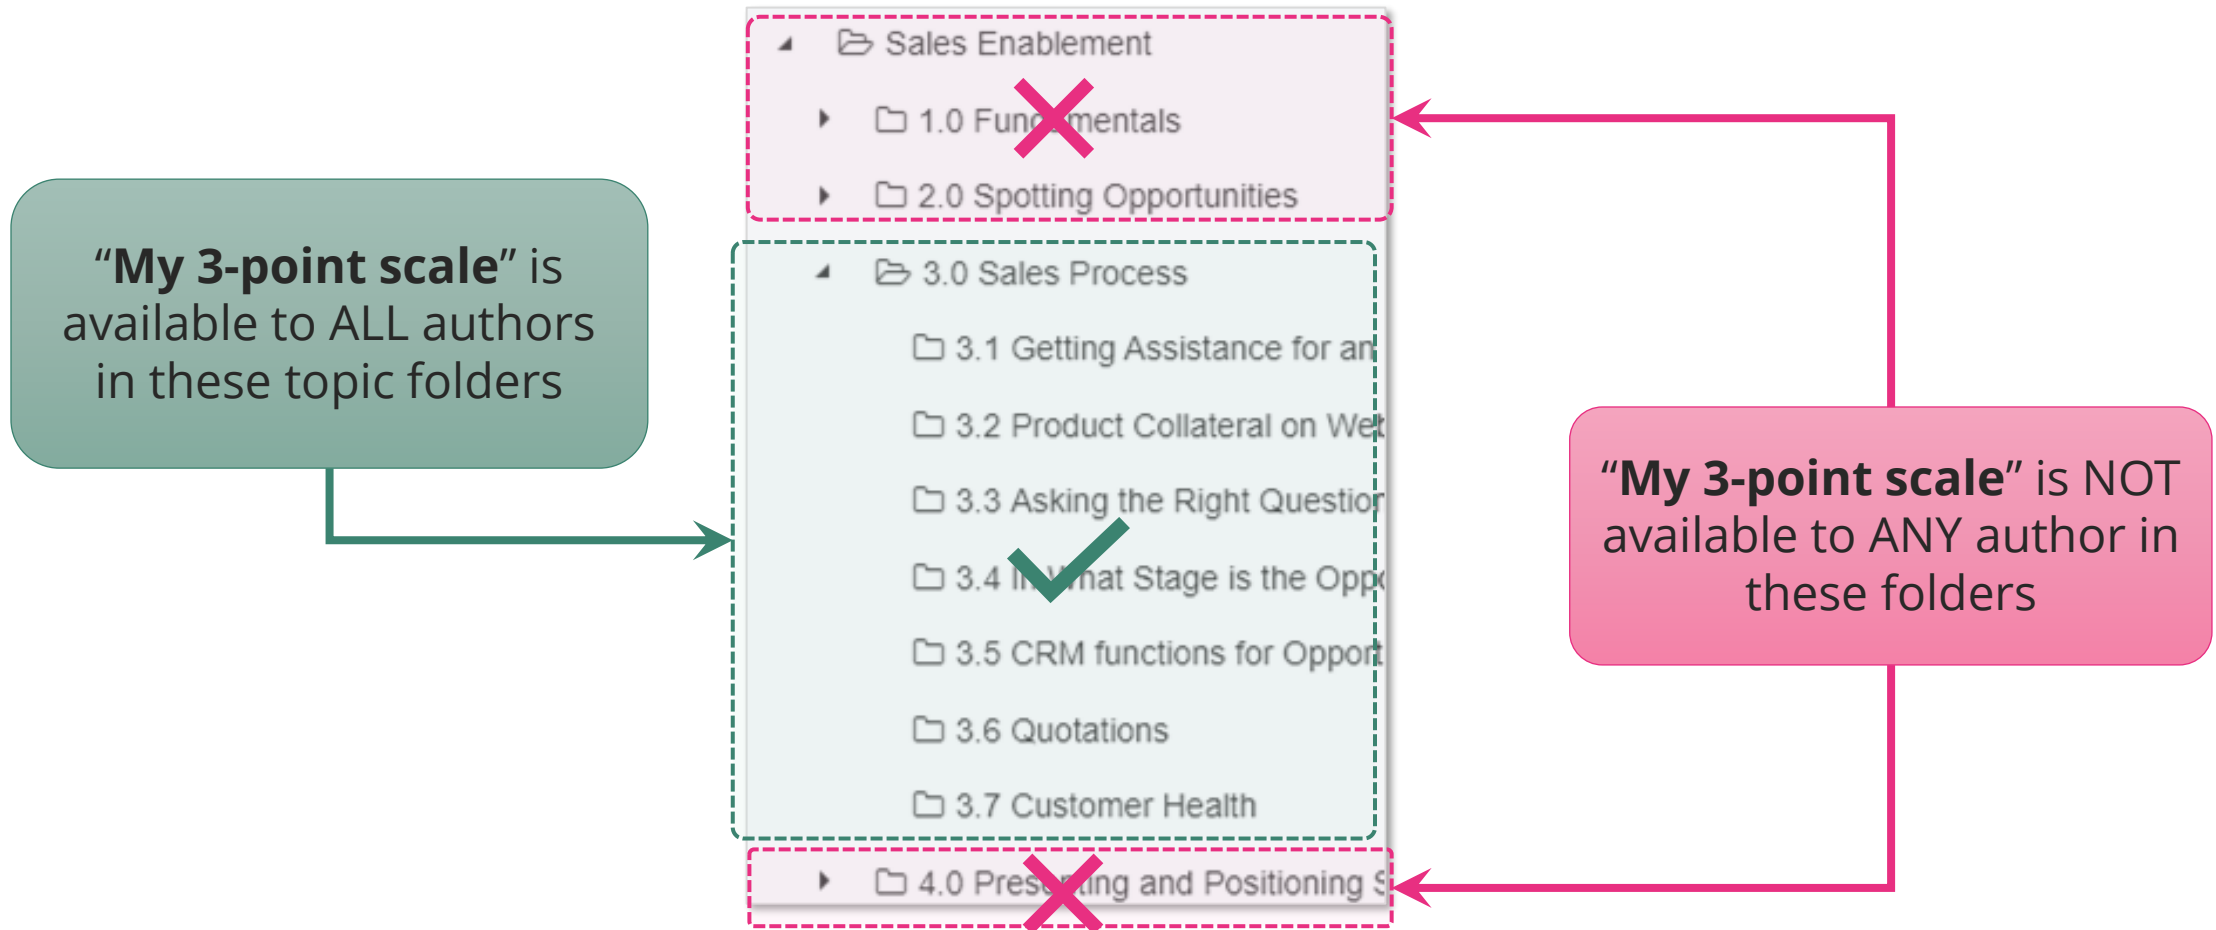

Topic Scales availability

An author creates a custom scale named **"My 3-point scale"** and uses it in a question*

**Important - the custom scale will not become visible to other authors until it is used in a question.*

Custom scale is shared

Prevents duplicate scales and scale names

Home » Topics » Topic scale

A scale with the name 'PF Comprehension 5' has already been created in this topic by yourself or another user. Please use an alternate name. Each topic scale must be unique. Please edit your scale choices or cancel the operation.

Performance Assessment: Launch Skillable Virtual Labs

Performance Assessment with Skillable

- Hands-on virtual lab environments for training and IT skills validation
- Can require participant to
 - Perform task or series of tasks
 - Answer questions
- Lab captures activities, responses for scoring
- Integrating with Questionmark enables customers to centralize
 - Scheduling of assessments and Skillable activities
 - Results from assessments and Skillable activities

Launching Skillable as External Activity

- Integration configured by Solution Services team: Adds “Skillable” as an “Activity Provider”
- Once configured, new option appears in “Assessments > New” menu (per screenshot)
- Activity is wrapped by Title, Description and Outcomes
- Activity is scheduled just like any other Questionmark assessment

Branching

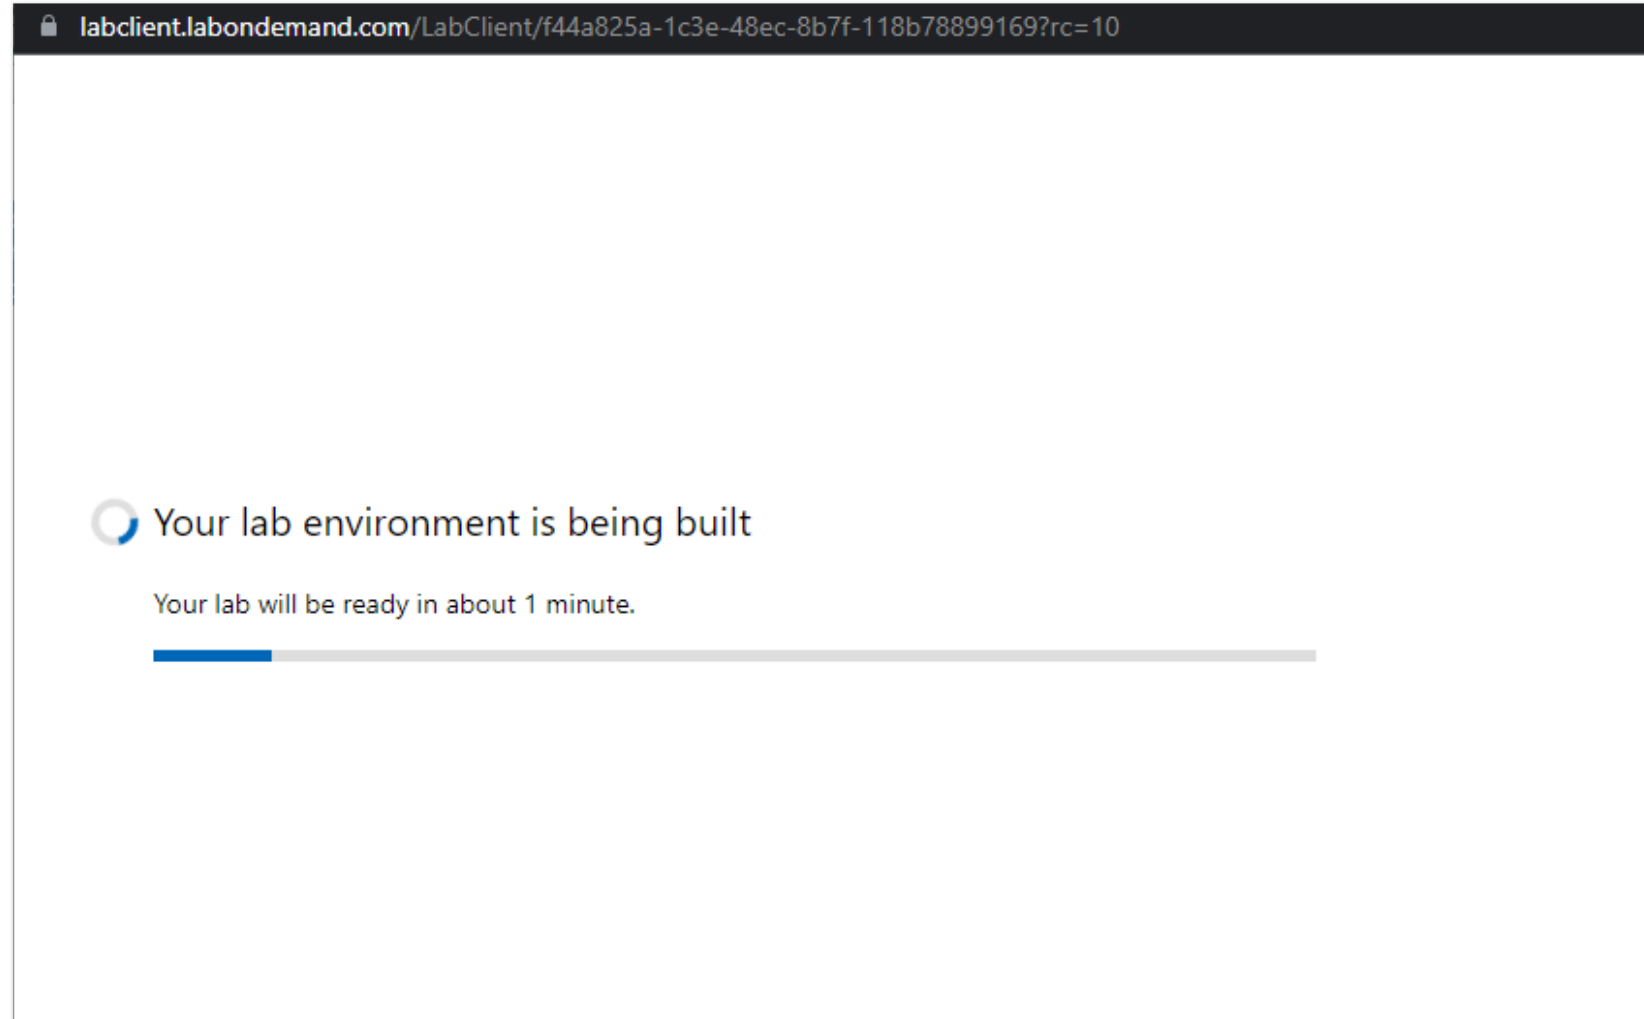

Participant launches activity from “My Assessments”

The screenshot displays the 'My Assessments' section of a user interface. At the top, there is a navigation bar with 'Home' and 'My Assessments' tabs, and a user profile 'NewTestUsername46386 NewTestUsernam'. Below the navigation bar, the 'My Assessments' title is shown. A table lists the assessments:

Name	Attempts left	Available from	Delivery	Actions
SkillableTest1	Unlimited		Automation_Proctoring Online: Exami	

At the bottom right of the table area, there is a blue button labeled 'Go to My Assessments p'.

Lab environment is created on the fly

Participant enters lab

The screenshot shows a Google Chrome browser window displaying a lab environment. The browser address bar shows the URL `labclient.labondemand.com/LabClient/f44a825a-1c3e-48ec-8b7f-118b78899169?rc=10`. The lab environment is a virtual desktop with a blue background and a single icon labeled "Recycle Bin". The Windows taskbar at the bottom shows the Start button, search, task view, and several application icons. The system tray displays the time as 9:20 AM on 5/10/2022.

On the right side of the browser window, there is a sidebar with a blue header containing the text "102: second try" and "28 Minutes Remaining". Below the header are tabs for "Instructions", "Resources", and "Help". The "Instructions" tab is active, showing the following content:

Cloud Components Description

In this template, no cloud components are provided.

Template Feedback/Requests

The templates provided in the public gallery are designed to meet common lab scenarios to help you get your labs up and running as quickly as possible with minimal configuration.

To provide a better lab developer experience, we need your feedback to expand and improve our library. Is there software we should add to virtual machines in the gallery? Should some settings be different by default? Should additional services be added to the virtual machines? Is there a common scenario that you feel should be addressed by the gallery?

Please let us know your feedback by contacting us at Templates@learnondemand.com with a description of the template design you'd like to see and as many details as possible. We would love to hear from you!

At the bottom right of the sidebar, there is a "Next >" button.

Results

- Task completion maps to raw and percent score for outcome calculation
- Question scoring maps to raw and percent score for outcome calculation
- Pass/Fail information in lab is ignored

Summary

- Instant Translate
- Topic Scales: Likert Scales Shared by Topic
- Bulk Update Questions - Add/Remove Comment Box
- Group filter for Item Analysis Dashboard
- Launch/track Skillable virtual labs
- Reminder - Internet Explorer 11 support ends
